

Support for Carers 2017

North East Hampshire and Farnham CCG commissioned us to find out what support services carers need. The full report is now available.

Over 250 carers took part in our engagement activities which included an online survey and face to face events

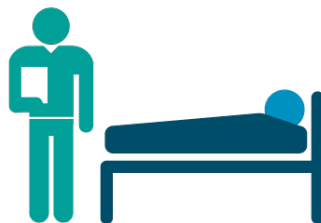

Support needs for carers focus on respite, peer support, health & wellbeing and access to information & advice

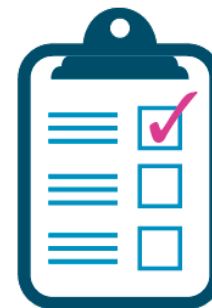

The views of young, military and Nepali carers and those effected by mental health issues were captured

48% of carers we spoke to described themselves as full time carers, 15% care for over 24 hours a week

Seven recommendations have been shared with North East Hampshire and Farnham CCG for consideration.

Share your views and experiences of caring and read the full report now at: www.healthwatchhampshire.co.uk
